A CT-PWIPM COMMUNITY OUTREACH MISSION

Professional women in pest management don't just work to protect people, structures and land from pest-related health threats. We go above and beyond -- and we give back to our community!

That’s why we are partnering with ARF, the Animal Rescue Fund in Terryville, Connecticut, to support this no-kill shelter with much needed donations, ensuring they have the resources to continue to do the important work they do. The Connecticut chapter of PWIPM wants to help ARF to continue operations, providing safe, warm, and loving help to animals in need.

ARF’s MISSION: Rescue, house, feed, clean and medicate stray, abandoned, injured, neglected and abused dogs, cats, puppies and kittens; spay and neuter when feasible (considering age and physical condition of the animal); rehabilitate the animals and find suitable, caring, permanent homes.

ARF NEEDS: Veterinary bills account for the majority of ARF’s operating costs; however they also have the normal utilities, a mortgage payment and food to buy. Cash donations help a great deal!

HOW YOU CAN HELP

Look for the donation boxes at your next event and make a donation of goods, supplies or much needed cash. Or contact Sheila Haddad, CT PWIPM chapter chair, for more information.
